OUR SERVICES

TECHNICAL CONSULTANCY

Go Managed provides a comprehensive technical consultancy service to help organisations **leverage technology** effectively and achieve your business objectives.

Our experienced technical consultants offer expert advice, guidance, and **project delivery** tailored to your unique IT needs.

BENEFITS

- ✓ Our technical consultants bring extensive knowledge and expertise across a range of technologies, providing valuable insights and recommendations to address your specific IT challenges and opportunities.
- ✓ We collaborate with you to develop strategic technology roadmaps and plans that align with your business goals, ensuring that your technology investments support your long-term vision and growth objectives.
- ✓ Our technical consultants assist in designing and architecting robust and scalable technology solutions that meet your requirements, optimize performance, and drive business value.

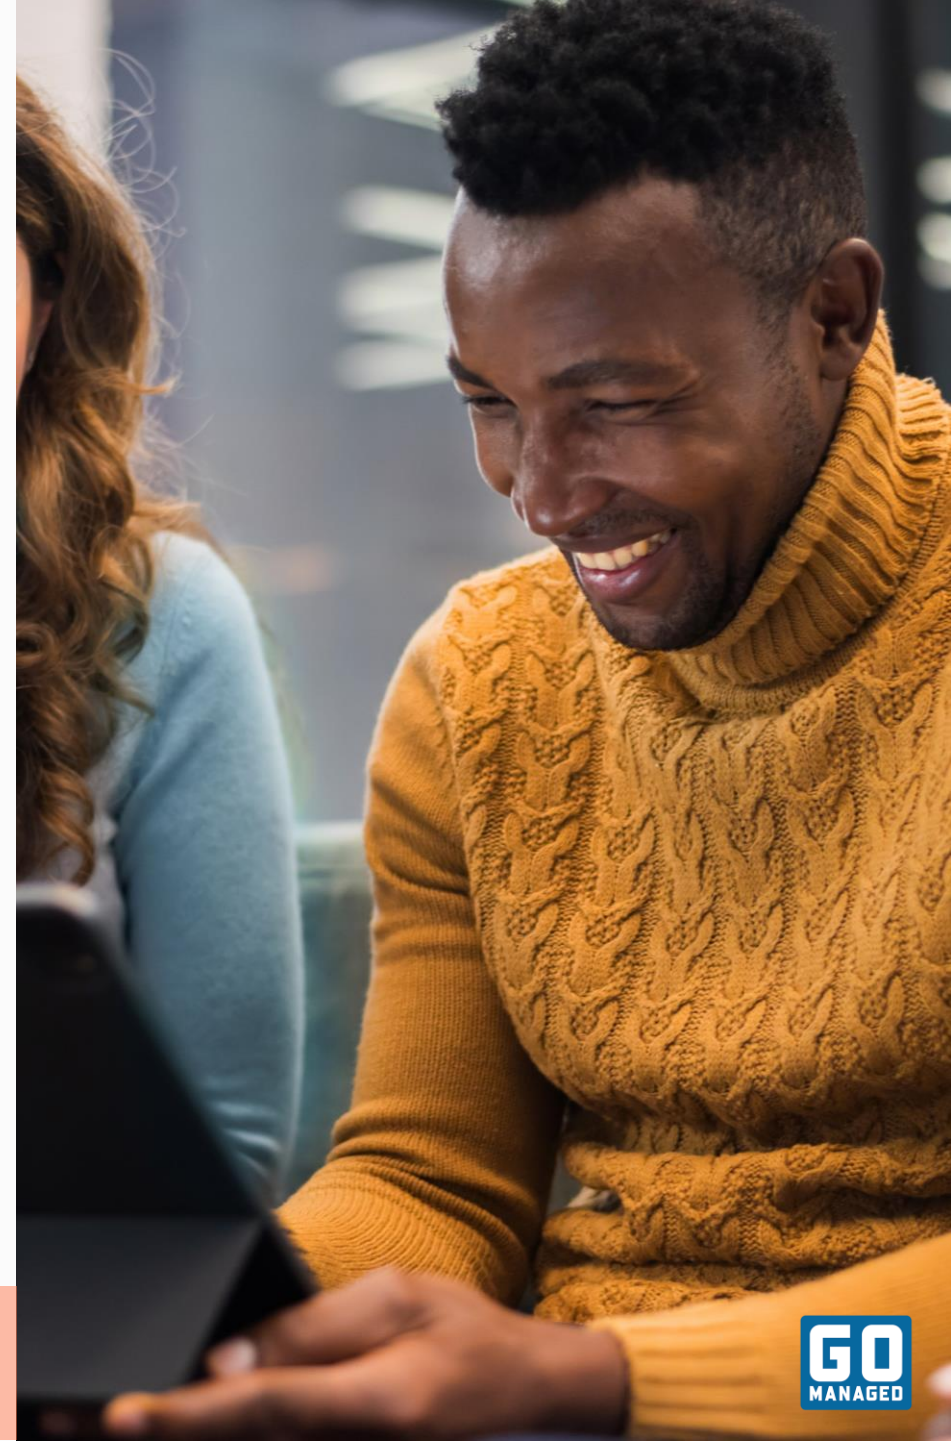

OUR SERVICES

IT PROJECT MANAGEMENT

Our project management experts effortlessly execute projects to deliver successful outcomes. Employing a **strategic approach**, we meticulously plan and manage each project phase. Through **transparent communication**, efficient resource allocation, and proactive risk management, we ensure on-time and on-budget project delivery, bringing your vision to life.

BENEFITS

- ✓ **Expert Execution:** Our seasoned project management team flawlessly implements projects to ensure successful results.
- ✓ **Transparent Communication:** With open and clear communication, we keep all stakeholders informed, fostering trust and effective collaboration.
- ✓ **Proactive Issue Management:** We stay ahead of potential roadblocks, resolving issues promptly to ensure smooth project progression.
- ✓ **Timely and Cost-Efficient:** We commit to delivering projects on time and within budget, meeting your expectations without any unwanted financial surprises.

OUR SERVICES

BUSINESS ANALYSIS

Our skilled business analysts bring deep industry knowledge and analytical expertise to the table. We conduct thorough needs assessments, gather and analyze data, and provide valuable insights to **drive informed decision-making**. With clear documentation, recommendations for process improvement, requirement engineering, and ongoing collaboration, we empower your organization to thrive.

BENEFITS

- ✓ **Data-driven decisions:** We meticulously gather and analyze data, enabling informed decision-making that is backed by evidence and solid information.
- ✓ **Process enhancement:** With insightful recommendations, we aim to streamline your processes, boosting efficiency and productivity within your organization.
- ✓ **Ongoing collaboration:** We don't just provide solutions and leave – we establish a collaborative partnership, working alongside your team to ensure the continued success of your business.

OUR SERVICES

APPLICATION PACKAGING

Our expertise is deeply rooted in the entire process of application packaging and deployment.

Through our all-inclusive Application Management services, we efficiently streamline these operations, enhancing automation and performance of your applications.

Our team remains committed to providing continual monitoring and support, ensuring your packaged and deployed applications run smoothly and updated regularly.

BENEFITS

- ✓ **Increase Automation:** Enabling frequent updates and improvements to applications without disrupting users
- ✓ **Continuous Support:** Our team provides continual monitoring and support, maintaining the smooth and secure operation of your packaged and deployed applications
- ✓ **Streamlining costs:** optimizing your application ecosystem, we help reduce licensing costs and eliminate unnecessary expenses, resulting in significant cost savings

OUR SERVICES

IT PROJECT DELIVERY

At Go Managed, our IT Project Delivery service encompasses **end-to-end project** management and execution, ensuring the successful implementation of IT initiatives for your organisation. We take a comprehensive approach to manage IT projects of various complexities, from small-scale improvements to large-scale transformations.

BENEFITS

- ✓ **Expertise:** Leverage our skilled project managers and technical teams: with a proven track record of successful IT project implementations.
- ✓ **Tailored Delivery:** Receive custom-tailored IT initiatives that align precisely with your unique business needs and objectives.
- ✓ **Security & Compliance:** Trust in our robust security measures and adherence to industry-leading compliance standards to safeguard your data and infrastructure.

“
Working with Go Managed Ltd was a pleasure. Their expertise and professionalism truly shone through during the upgrade of our library devices to Windows 10 and the deployment of a user-friendly public access solution. The seamless process, enhanced user interface, and simplified management greatly improved the experience for our staff and visitors. We wholeheartedly endorse Go Managed Ltd. – their IT services have transformed our library into an even more engaging community space.

OUR CLIENTS

Go Managed proudly serves clients both locally and internationally, from London to Dubai, Poland, Ivory Coast, Mauritius, we deliver smooth IT projects. With our specialised knowledge and global perspective, we cater to diverse organizations, from local councils to multinational enterprises.

CLIENT SUCCESS

We engaged Go Managed to carry out a business process re-engineering project for our construction business – which was spread across a number of countries.

Working with Nas and Kai was a great experience from start to finish – we came out of this exercise with a full appreciation of what we need to do to improve our operations and most importantly our bottom line.

I would not hesitate to recommend Go Managed – they are a professional company that delivers when it counts.

OUR APPROACH

PLANNING & CLEAR COMMUNICATION

Setting the Foundation for Success: We establish clear objectives, realistic timelines, and efficient resource allocation to lay the groundwork. Transparent and frequent communication with clients and stakeholders is our guiding principle.

SYSTEMIC EXECUTION & PROACTIVE RISK MANAGEMENT

Our success is driven by structured workflows and proactive risk mitigation: We follow well-defined processes for efficient task management and prioritize identifying and addressing potential challenges before they arise. Through our approach, we ensure smooth project execution and deliver successful outcomes.

CLIENT-CENTRIC FOCUS

Tailored Services for Your Success: Our client-centric approach revolves around understanding your distinct needs and goals. By placing your requirements at the forefront, we create customised results that align precisely with your vision for success.

MEASURABLE RESULTS

Delivering on Our Commitments: We prioritize on-time project delivery, budget adherence, and the successful achievement of project objectives. Our unwavering dedication ensures that we fulfill our promises to you and drive successful outcomes.

PARTNERING WITH GO MANAGED

- ✓ **Proven Expertise:** Benefit from our extensive experience and expertise in the IT industry. With our in-depth knowledge, we can provide valuable insights, strategic guidance, and effective project delivery that bring tangible value to your business.
- ✓ **Enhance Technology and User Alignment:** By synchronizing technology initiatives with end-user needs, we can ensure successful project deployment that not only fulfills business goals, but also enhances user satisfaction. This strategic alignment amplifies your return on technology investments, while driving seamless project implementation and fostering robust user adoption.
- ✓ **Long-Term Partnership:** We value long-term relationships with our clients and strive to be your trusted technology partner. By consistently delivering high-quality services, timely support, and measurable results, we aim to establish a lasting partnership focused on your success.
